Frame Assembly Guide

-
- This diagram shows an exploded view of a mechanical assembly. The components are labeled with numbers 1 through 13, each enclosed in a circle. Dotted lines connect these numbers to their respective parts in the assembly. The assembly consists of a central plate (1) with various slots and holes, surrounded by a circular frame (2). A large, curved, ribbed component (3) is positioned above the central plate. A long, thin rod (4) passes through the assembly. A complex, multi-part component (5) is located on the left side. A small, circular component (6) is positioned near the center. A small, rectangular component (7) is located on the right side. A small, circular component (8) is positioned near the bottom. A small, rectangular component (9) is located on the left side. A small, circular component (10) is positioned near the center. A small, rectangular component (11) is located on the right side. A small, circular component (12) is positioned near the top. A small, rectangular component (13) is located on the right side.
